👤 SUMMARY

As a quality driven, motivated and skilled web developer, my objective is to contribute my knowledge, technical expertise and creative thinking to design and develop innovative and user-friendly websites and web applications. I want to leverage my skills in HTML, CSS, JavaScript, React.js, Tailwind Bootstrap etc. to create exceptional websites and web applications. Always eager to learn and to stay updated with the latest trends, constantly up-skilling myself. I want to put my skills and knowledge to good use and deliver top notch services that ensure the company's growth as well as my own learning.

📁 PROJECTS

Restaurant Website 🔗
Made a restaurant website using React.js that has hardcoded menu to choose from and add to cart. Can dynamically update the cart.
GitHub Link- https://github.com/prashantpandey98/Front-end-React/tree/main/Restaurant_App

Mail-Box Client 🔗
A mailing application that keeps a record of mails sent and received. Has 'Sent' , 'Inbox, and 'New Mail' features.
Github- https://github.com/prashantpandey98/mail-box

Expense Tracker 🔗
An Expense Tracker app made with React that keeps a record of your expenses and uses Redux to manage data and global states.
GitHub Link- https://github.com/prashantpandey98/Expense-Tracker

E-Commerce Application 🔗
Made a scalable and user-specific E-commerce app using React.js, Bootstrap, CSS and Firebase api.
GitHub Link- https://github.com/prashantpandey98/E-Commerce-Website/tree/main/e-commerce-website

Text-Utils 🔗
Made a project using React.js that takes text inputs and ,modifies it as the user wants. GitHub-
https://github.com/prashantpandey98/React_app-TextUtils

Spotify Main Page Clone, *CSS Mini Project*
Used CSS to design Spotify Main page. GitHub-
https://github.com/prashantpandey98/Projects/tree/main/Spotify%20MainPage
